## BLUE BIRD CLUB IN SUCCESSFUL PROGRAM

DELIGHTFUL OPERETTA PLEASE  
BIG AUDIENCE FRIDAY  
NIGHT

A delightful operetta was given last Friday evening at the Yoe High School Auditorium by the Blue Bird Choral Club under the splendid direction of Miss Eloise Rogers.

A large crowd attended, and each member deserves special mention for the splendid manner in which the characters were taken. Little Miss Lucille McDermott, has become quite a favorite of the club throughout the year, having visited the studio and practised with them on numerous occasions. She wore a dainty little blue dress and appeared with the club in the popular songs which were given before the operetta.

The first act was a scene in an old fashioned parlor in West 61st Street New York, on Friday afternoon in early September. The story follows:

Miss Thyra Caruthers has been left a large estate by her father, in whose will she has been requested to continue the support of one of his philanthropies, an Art Club, in West 61st Street, New York, where talented young women might secure board and room at small cost while carrying on their studies in the various arts.

Miss Caruthers, at the death of her father, has gone to Europe to travel. On her return she determines to find out for herself just how her money is being spent by Mrs. Jones, the matron of the Art Club, and to satisfy herself as to the characters of the girls who are receiving the benefits of her philanthropy. She gains entrance to the Art Club by posing as a maid, whereupon she learns that Mrs. Jones has been using money that should have gone to the support of the place to purchase clothing for her niece, Desdemona; also that Desdemona is planning to elope with a Mr. Jerry Smith, pretending to be a millionaire. Miss Caruthers learns that he is an impostor who wishes to marry Desdemona because he thinks she is an heiress. She further learns that the girls are hard working, ambitious girls. She frustrates Desdemona's plan to elope and saves her from a compromising situation in which she seems guilty of stealing her aunt's money. Later Thyra reveals her true identity, forgives Mrs. Jones's indiscretion, and secures that lady's promise to give Desdemona another chance. She commends the girls for their loyalty to each other, and promises to help each one of them to realize her ambition.

Miss Gladys Davis was the matron, Mrs. Jones, and played her part splendidly. The maid, Mary, in reality Thyra Caruthers, was played by Miss Florence Atkinson and showed remarkable talent. Because of her unusual ambition and originality she became quite a favorite of the girls. Bridget, the cook, was well represented by Miss Ethel Collins, dressed as a typical Irish lady, rather corpulent. Desdemona, Mrs. Jones's niece was played by Miss Dorothy Blacklock. She was somewhat inclined to be haughty, however quite a favorite of Mrs. Jones. The girls attending the Art School were: Misses Lena Ball Baskin, Inez Evans, Kathleen Ely, Bethel Middleton, Euline Slaughter, Dora Emily Moore, Reba Young, Harriet Plinn, Sue Griffin Webb, Dorothy Denson. The chorus was composed of Misses Helen Blaylock, Lilian Mondrik, Frances Hause, Katherine Leath, Ethel Green, Lois Robbins, Ruby Robinson, Lois Randolph. They appeared a number of times, and also featured in a delightful melodrama. Miss Geraldine Slaughter accompanied the musical numbers at the piano.

Mrs. A. J. Triggs and Miss Eloise Rogers very charmingly sang a duet and responded with an encore. Miss Lucille Dickard played the accompaniment.

Rev. and Mrs. Wallace Jones of Ft. Worth are spending the week in Cameron and are pleasantly located in the W. B. Minor home. Rev. Jones will preach at the Christian church Wednesday evening and will occupy the pulpit Sunday morning and evening April 10.

Mrs. Jessie Winn left Tuesday to make her home in Nacogdoches.

## Webb Re-Elected As Secretary of Club

Paul Webb was elected secretary of the Commercial Club on Monday night at the meeting of the directors.

J. R. Hays who was an applicant for the place was defeated by two votes.

Mr. Webb has been secretary for the past three years. Mr. Coleman, president, will announce his committees at the next regular meeting of the club Monday night.

The club in reply to an inquiry from the Lone Star Gas Company at Marlin, says the people here are interested in natural gas and an effort will be made to bring the industry here.

## CHURCHES TO LEAD BOY SCOUT MOVEMENT

BANQUET HELD AND PLANS ARE  
MADE FOR WORK AMONG  
YOUTH OF CITY

At the instance of the Pastor's Association of Cameron, a meeting was held last Monday evening at the Methodist church basement, to discuss plans for the organization of one or more Boy Scout Troops in Cameron.

Forty-six guests, representing the various churches attended, including Rev. Gus J. Craven, pastor of the Presbyterian church at Maysfield and Dr. Swofford of Rockdale, the last two named gentlemen, being already actively engaged with Boy Scout Troops. Rev. J. P. Love, pastor of the Episcopal church presided and stated the purpose of the meeting.

Rev. Jesse Garrett, Baptist Missionary, made an interesting and instructive talk concerning the history, aims and purposes of Boy Scout organizations. (Mr. Garrett formerly identified with this work before removing to Cameron, and strongly advocated such organizations as builders of good citizenship. Other speakers on the program were T. A. Fisher, Supt. of Cameron Schools, F. E. Jackson and Charlie Terry.

A great deal of interest was manifested for the organization and carrying on of this work and on motion of Fred Cable, duly carried, the pastors of the various churches were requested to appoint committees from their membership to work out the details of a plan and to report at a future meeting.

The ladies of the Methodist church served spring chicken, English peas, corn, fruit salad, hot rolls, iced tea, brick cream and cake.

## EYE WITNESS TO MURDER IN 1876 TELLS OF TRAGEDY AND HOW MOB AVENGED DEATH OF PIONEER

Here is an interesting story told to County Judge Jeff T. Kemp by John T. Baldrige of stirring scenes enacted following a murder in 1876 and the avenging mob of Bell county citizens of the death of John Baker. This interesting story was written by Judge Kemp as told by Mr. Baldrige:

John T. Baldrige of Lilac was in Cameron Monday bringing in the returns of the election for school trustees held Saturday April 2nd.

Mr. Baldrige is one of our oldest citizens and while here became in a reminiscent mood and discussed with friends the famous murder case in which he was the star witness, about 1876 when John Baker, a young married man of Bell County was cruelly murdered by a negro, Antony Williams.

Rockdale then was the terminus of the I. & G. N. railroad and was the railroad point for Bell County. The public road from Bell County to Rockdale ran by the farm that Mr. Baldrige was improving, now known as the Reichert place about one mile east of Sharp. Mr. Baker was returning from Rockdale where he had sold a bale of cotton and was riding in his wagon with two front bows up with a wagon sheet on them. He passed near where Mr. Baldrige was cleaning the land, but Mr. Baldrige was resting at that time and while he saw Baker, Baker did not see him.

He noticed a negro with a shot gun riding behind the wagon and saw him quicken his gait and raise his gun when in a few feet of Baker, the shape of whose back could be seen on the wagon sheet, the negro first shot him in the back and then in front.

He then robbed him, taking \$35.00 in money and his pocket knife when the negro rode off. Mr. Baldrige secured him a horse and started for the residence of the late John T. Randle but struck up with a Deputy sheriff, whose name he cannot recall for it has been more than fifty years ago. They organized a posse and scoured the country. From the minute description given by Baldrige of the negro and horse he was riding, he was arrested next day near Rockdale.

The horse was put in a pen with 30 others and Baldrige was sent to identify him; he pointed him out at

first sight and it was the horse the negro was found riding. A negro by the name of Joe Clayton informed the officers that he had seen a negro the morning of the murder and from the description of the horse and rider he was sure it was the same negro, if so, he could identify the saddle. A test was made with him and he promptly identified the saddle taken from the horse the captured negro was riding.

The negro had \$30 of the money, and had Baker's pocket knife, which was identified at the trial by a neighbor of Baker as he had assisted Baker in killing hogs a day or so before and used it. The examining trial was held by the late Joseph McKinney, father of A. J. McKinney of Jones Prairie, who was Justice of the Peace of Precinct No. 2, also county commissioner. The negro was given a fair trial by a jury before the late Judge A. S. Broadbuss; was prosecuted by the late Judge John N. Henderson, brother of T. S. Henderson, and was convicted and sentenced to be hanged.

The court house had been burned and pending the building of another, court was held in the old Baptist church upon the site of the present fire station. The late Thos. H. Graves father of George T. Graves, was a member of the jury. The negro was placed in the old log jail situated upon the lot where Mr. Frank Plaster's blacksmith shop now stands, an orderly mob was organized by the Bell county neighbors of Baker, who was very popular and connected with some of the best families of Bell County, Sam Sparks of Austin being a relative.

The mob secured the keys from the jailer and got the negro and placed him in front of the leader, who was riding a fine horse. He was then taken to a little branch about two miles from Cameron on the Belton-Cameron road and burned. This little branch has ever since been called, "Nigger Hollow." It is now spanned by a new bridge with long guard rails near the residence of Joseph Ondrej.

Our good old Confederate veteran friend, Alex S. Baker, now living at Ad Hall was a brother of John Baker.

## ST. MONICA'S CHURCH TO ERECT NEW BUILDING

PARISHIONERS HOLD MEETING  
AND APPROVE PLANS  
FOR BUILDING

St. Monica's church is to be rebuilt with a new structure to be one of the finest church buildings in this section of the State.

A meeting of parish members held Sunday in the Knights of Columbus hall considered and adopted plans. Only eight opposed the erection of a new building.

Plans are being submitted now and Rev. Father Apel says as soon as the blue prints have been approved a cut will be made for the paper.

The church will be a modern brick building that will be a credit to the city and in their plans the people here are manifesting great interest.

A large number of contributions have been made to the fund by those who are not members. The members are also responding well to the task.

## CHEEVES BROS. ANNOUNCE NEW EASTER MERCHANDISE

Cheeves Brothers this week announce a big Easter sale. In an advertisement in this issue the big store offers some great savings, and announces the display of a big new stock of Easter and Spring merchandise.

The Cheeves sales always are genuine bargain events. They advertise facts and are always rewarded with a nice business. In this announcement the store is making some fine prices and goods are to be sold at savings to the people.

## TRIGGS MOVES

The Triggs Dry Goods Company has moved the stock remaining from the sale to the building formerly occupied by the Klawansky store.

## Three Aldermen Named In Tuesday Election

In the election Tuesday three Aldermen were elected to the city council for two years as follows:

Sam McDermott  
E. L. Brod  
Logan Green

Only 24 votes were cast in the election. E. E. Jackson received one vote, the only departure from the nominees of the February primary election.

The new aldermen will take office on April 19th.

## KNIGHTS PYTHIAS HERE CONFER RANK KNIGHT

FIVE FINISH DEGREES—GRAND  
CHANCELLOR NOT  
HERE

Despite the disappointment of the failure of Grand Chancellor Freeman and Supreme Representative Tom Connoley to be here on Monday night the local Lodge Knights of Pythias held an interesting and well attended meeting.

The death of two prominent members of the order, C. F. Weiland, Dallas and Jas. S. Patrick, Paris kept the Grand Chancellor and Mr. Connoley from attending the meeting here. The local knights hope to have them here in the near future.

Three deaths among ranking Pythians have occurred since the grand lodge last assembled. John T. Bonner in charge of the insurance department died in Mayo Brothers hospital in December 1926 and was buried at Wichita Falls. He lived in Houston. James S. Patrick of Paris, Texas, died suddenly at his office in Dallas in March 1927.

Chas. F. Weiland of Dallas died at his home there last week after a short illness and was buried Monday, April 4.

There was a large attendance at the Knights of Pythias convention last Monday night, at which time the Rank of Knight was conferred upon Gillis Graham, Sam Cheeves, Richard Veat, Clarence Poney and Charles McGehee.

Week by week greater interest is being manifested in Milam Lodge No. 125 and many of its old members who have been careless about their attendance are often gracing the Lodge by their presence.

## Old Tax Receipt Shows Increase In Land Values Here

An item in Sunday's issue of the Temple Telegram mentioned an old tax receipt issued by John Beal, sheriff & tax collector of Milam County in 1880 from the old county seat at Nashville, on the Brazos. The receipt was issued to Col. Wm. C. Sparks, a pioneer citizen, grandfather of Sam Sparks of Austin, for \$23,000 State and County tax on a league of land, containing 4,428 acres on Little River near the present village of Sparks in Bell County, which was then in Milam County and was a choice selection from the unsettled domain of Texas. It is of interest that a grandson of this pioneer tax collector, Dan Tyson, is also writing tax receipts.

Mr. Tyson is the efficient tax collector of the city of Cameron, however it will be observed that the present tax rate is slightly higher than his grandfather collected from the citizens, but he still gives service with a smile.

## ZALESKY SALE BRINGS MANY TO CAMERON

The Pre-Easter Sale of the Zalesky Dry Goods Store in Cameron has been a success. The sale will close on April 16. Mr. Zalesky purchased his circulars in Cameron for the sale and declares they have brought him the business.

Many people have come from distant points to trade at this store during the sale.

Mrs. L. J. Power and Mrs. C. E. Porterfield left Tuesday morning for Lufkin, as delegates to the Woman's Conference of the Texas Conference, which convenes at that place this week.

## DANIEL G. DAVIS, 90, DIES AT SHARP HOME

TERRY RANGER, CONFEDERATE  
AND TRAIL DRIVER BURIED  
AT SHARP

Daniel G. Davis, 90, pioneer and soldier of the Confederacy died at his home in Sharp Saturday night April 2, 1927 at 8:30 o'clock following a short period of illness which at his advanced age rapidly took his life.

Death came to the pioneer peacefully with the aged widow and their children watching at the bedside in vain hope that life which had been generous to him in years of long and active service, would spare him further.

By reason of his long years and active life as a pioneer, struggling with those who came to the Southwest to live and tame its wilderness before the star of empire had risen on the vast domain west of the Mississippi, hundreds who knew him were keenly grieved by his passing.

The funeral services were held at the Presbyterian church on Sunday afternoon April 3 at 3:30 o'clock with Rev. Granger, Baptist minister of Little River, delivering a fitting tribute to his life which had been lived amid the stirring scenes of Southwestern life. The body of the pioneer lay at the home from Saturday night until mid-afternoon Sunday where hundreds came to view the remains. Dressed in a suit of gray, the color of a uniform he wore with honor and distinction as a soldier under Albert Sidney Johnston, the pioneer, a handsome figure, drew tears to the eyes of aged men and young as well, during the hours when they came with expressions of sorrow and with tears to bid farewell.

The home was banked with flowers, wreaths coming from far and near. Neighbors and life long friends and acquaintances of the family came in large numbers, gripped with sorrow that enthralled the hearts of all who love and revere the memory of the men who gave most in perpetuating the deathless glory of the Southland and the spread of civilization in the country where once dwelled the Red Man, undisturbed on the prairies and in the mountains.

The church building was filled to capacity while hundreds stood outside in the wind and sun of early April, attesting in their silence a tribute few men may know when their hour comes to begin the long journey.

Mr. Davis was a Christian, holding fast to the faith through the years, dying as he had lived, steadfast and triumphant.

A special choir of selected voices sang the old songs of his church and the melody of it sweetened the hour remaining to those who must shortly say good bye. The Coleman-Epler

## JACK LEWIS TO LEAD BAPTIST BIBLE CLASS

CLASS PLANS LARGE ATTENDANCE—JUDGE DAVIS  
HERE APRIL 24th

Jack Lewis, district attorney, will teach the Baptist Men's Bible Class Sunday morning. The lesson is a study from Matthew on "Christ the Ever Present Helper," and Mr. Lewis will bring a message to the men that will be helpful and inspiring.

Mr. Lewis is a good speaker, entertaining and very logical. F. E. Cable, teacher of the class is very anxious to have a large attendance.

The class on last Sunday began the membership campaign to build up a large permanent attendance for the class.

On April 24 Judge W. C. Davis of Bryan will address the class. He was formerly district attorney here and well known in Cameron. Many of his old as well as new friends will be present to hear him.

At the conclusion of the canvass Governor Moody will be asked to address the class at a banquet where more than 200 men are to be present.

The pastor E. S. Hutcherson who is leaving shortly for the Baptist convention in Virginia will be back to teach the class on Mother's Day, May 8th.

## GOODYEAR'S

### New Balloon Tire

### For Fords and Chevrolets

The New Goodyear  
All-Weather Balloon  
Tire with the  
new-type  
All-Weather Tread

Ever since Balloon Tires were introduced, Goodyear has been experimenting with tread designs to develop a tread which would match the Goodyear Balloon Carcass made of Supertwist Cord.

Eighty different treads have been tried within the past two years and hundreds of thousands of miles run on test cars. Finally, out of all these tests has come the new tire shown above.

Tread scientifically redesigned for Balloon It is the famous Goodyear All-Weather Tire use.

The first big advantages of this new tread

are traction and resistance to skidding. The sharp-edged diamond-shaped blocks are placed in a semi-flat design so that they not only grip the road but they retain their usefulness longer than any non-skid tread ever before tried.

The second big advantage is long, slow, even tread wear as opposed to the 'cupping'

29x4.40  
Only \$11.60

and uneven wear so noticeable on many other Balloon Tires.

And with these virtues of traction, non-skid and long wear this new tread is perfectly quiet and does not produce the vibration of many non-skid designs.

With the Goodyear Supertwist Carcass and the new Goodyear Balloon All Weather Tread, you have the safest, longest wearing, most trouble-free tire Goodyear has ever produced.

We have this new tire in the 29x4.40 size for Fords and Chevrolets. Come in—see it—you'll want it right away.

### SAYS MEXICO IS BOLSHEVIK AND MENACE TO AMERICA; COLLINS IN ADDRESS HERE BARES PLOT

Red Russia is sovereign in Mexico says Peter W. Collins of Boston who lectured here on last Thursday night, April 31 at the Yoe High school to more than 200.

The address of Mr. Collins detailed the character of the Mexican government, showing what he claimed as Soviet control in Mexico. He did not touch to any extent upon the religious side of the question.

J. B. White, editor of The Herald introduced Mr. Collins as follows:

Ladies and gentlemen:—Your presence here tonight indicates your interest in public affairs. As American citizens we welcome frank and free discussion of public issues, especially those issues that affect the welfare of our own people—the relation between this country and other countries.

When your committee announced this lecture, I looked forward with a great deal of anticipation for some information that would come as a result of this discussion to enlighten us on the situation now obtaining in the Republic of Mexico.

Having lived in this State all my life, and perhaps the most of you having lived here most of your lives, the fact that the discussion is of Mexico, our sister Republic, all of us are more or less interested in the internal affairs in that country and conditions over there.

My friends with this brief word it gives me great pleasure to introduce Mr. Peter W. Collins, who will now address you upon Mexico.

The Address:

After experiencing about 20 years of talking and public speaking I have come to the conclusion that perhaps after all it is the listener and not the speaker who gets ahead. Perhaps you will be interested in hearing the proof of that statement, by using an experience that happened to me during the war.

During the war I was the Industrial Expert for the United States Government in charge of the work of speeding up production in the factories. I remember on one occasion the government sent me to Boston for the purpose of talking to 10,000 workmen at a factory there and they told me I would meet my chairman who would take me out to the factory and introduce me. This day I went to Boston and there met my chairman, a man who had some political position, and we drove out to the factory and I talked to the workmen. After I had talked he said to me, "I would like to have you dine with me." I said I perspire very freely and talking to 10,000 workmen and holding their interest and attention took some physical

energy and I had much rather go home and have a change, but he said, "that is all right, come with me," and I thought of course, he and I just we two, would go have dinner brought me to the hotel in Boston where the governor of the State was somewhere, but instead my chairman holding his regular weekly dinner meeting, and he introduced me to the Governor and members of his counsel with whom we had dinner, and after dinner the Governor said, "What do you say to going to the ball game?" That day New York and Boston were playing and the great Matthewson was to pitch the game, they all joined in and said, "Sure Governor we will be glad to go with you," all except my chairman, my chairman said, "I am sorry indeed and regret exceedingly that I cannot go because I have a very important engagement, so the Governor and his counsel went away and left the dining room to my chairman and myself. My chairman remained seated when they left and he started asking me questions, not doing any of the talking at all, just merely listening, and when the first hour had passed my chairman was there listening and I wondered what his important engagement might be that had caused him to refuse the Governor's invitation, but when the second hour had passed and he was still listening I was amazed, but when the third hour had passed and my chairman was still sitting there listening to me talk, I was dumbfounded, and that night I wrote in my diary, I have kept a diary for twenty years, "this has been a unique experience with me; met a man who refused the invitation of a Governor and listened to me talk three hours." I wondered at the future of that type of man, but when President Warren Harding died and my chairman, Calvin Coolidge, became president I realized it was the listener and not the talker and speaker who got the benefits, and since that day this thought has come to me frequently, if I had had sense enough to let Calvin Coolidge do the talking and myself do the listening, perhaps I might be president of the United States today. But you

see in spite of that fact I have been talking over twenty years, and am still talking.

It is a great pleasure to me in having the opportunity to come to the enterprising community of Cameron and of discussing some of the serious dangers that threaten the future of our very existence, it is no exaggeration to say that the danger today and the future of civilization, and especially the future of our own country is the danger which needs the most careful consideration on the part of the American people today than the danger of red radicalism, bolshevism, and communism as is foreseen in Mexico, where a great people with 400 years of Christianity with great traditions are held in abject subjection under the red rule of Mexico. Why should we be interested in Mexico? If I were asked that question today I would say that there are three principal reasons why I am interested in the Mexican situation:

First: The very first reason I should give is because I am a Christian and a follower of the Divine Master, and because I know from experience in Mexico that every vestige of Christian association is absolutely scorned, repudiated and prohibited under the red rule in Mexico; that God and the laws of God and His Ten Commandments are dethroned in Mexico. That is the first reason why I am interested in discussing the Mexican question, because I am a Christian.

Second: The second reason is because I am an American, loving my country and loyal to its institutions and ideals, and because I know from experience in Mexico that every vestige of these great God given institutions and ideals upon which America rests, and upon which all civilization, life and liberty and justice and freedom today under the red bolshevism are entirely excluded, scorned and repudiated, and because, as an humble American, I am interested to preserve these great God given ideals, not only for the present and the future generations of Americans, but the future generations of all mankind.

Third: The third reason is because I am a member of Organized Labor; for over twenty-five years I have had no small part in the labor movement from the time, when over twenty-five years ago, I joined the Electrical workers union, of which I am a member in good standing today, down through all the years when I went to the conventions of the Federation of Labor and from the time when I was President of one of the largest labor unions, and because of that fact and association and contact with labor through all the years I welcome this chance that comes to the future American laborer on account of the union and unholy alliance that the Federation of Labor holds

with the red Mexican Federation of Labor, which is merely to say the Red Government of Mexico.

These are the reasons why I am discussing the Mexican question, and from this point of view I shall produce the evidence in regard to the case.

This audience has the privilege of acting as a jury, and may I say this to the audience: Audiences in general, and from experience I know, because I have traveled over thousands of miles and there is not a town or city of importance that I have not spoke in and I have talked to thousands of audiences, and can say that the American people, irrespective of their race or creed, religious belief or nationality, when they hear the facts, they always render a fair, just and impartial verdict, and now I propose to present the case on facts, and the first piece of evidence I am going to call exhibit A.

This is known as the Constitution of Mexico. Generally when we hear about the Constitution, every man gets the impression that the Constitution is the guaranteeing of and protecting of right, life and liberty and justice and freedom. That is true when you hear of the Constitution of the associated Nations of the world, and true particularly when you hear about the constitution of the United States, but it is not true when you hear of the Constitution of Mexico, because the Constitution of Mexico today absolutely repudiates and rejects and prohibits and denies every one of the great God given inheritances of life and liberty and freedom and justice as given and containing in the Constitution of the United States. The constitution of Mexico was never approved by the Mexican people, nor approved by the Republic of Mexico but was made and perfected by the red hand of —while they were in power.

The first clause declares that members of all religious classes and denominations must be of Mexican birth. If Moses were to come to earth today with the Ten Commandments, under the Constitution of Red Mexico, Moses would be denied the right to enter because neither Moses or the Commandments are of that Nation; even should our Lord himself come to earth our Lord would be denied the right to enter Mexico and preach his gospel under the Red Constitution, because He was not born in Mexico.

The next declares for the abolition of free speech; a denial of free speech and denying the right to meet in mass meeting.

All church property is confiscated; that is, it is taken away from the rightful owners. It sets forth the property of all schools, churches, church buildings, convents, hospitals, asylums and all other property be-

## PRICE CROSS SINGS IN RECITAL IN DENISON

The following was taken from the March number of the "Musical" and will be of much interest to the many friends of Price Cross, who formerly resided in Cameron. His voice has been much in demand during recent years in many sections.

Price Cross is the son of Mr. and Mrs. S. P. Cross of Cameron, and his friends and theirs will be delighted to read of his appearance in a recital in Denison.

Miss Joy Lindsey and Price Cross Jr., pupils of Mrs. Lockie Marshall Pyle of Greenville, were presented in recital at Hotel Simpson, Denison. Miss Lindsey sang a group of English songs for her opening numbers: "I Hear a Thrush at Eve," Cadman; "When Love Comes Clamoring In," Carew; and "Love Means You," Rogers. She also gave a French group: Aris "Jocelyn", Coddard. She distinguished herself for fine comprehension and musical grace.

Mr. Cross, who has a beautiful rich bass baritone voice, gave the beautiful setting by Fellman based on his delightful listeners were partial "Boots" by Kipling and created a splendid impression, though many of to a lovely Creole song, "Ay, Ay, Ay," sung in Spanish. His last group in German, consisted of "Sappische Ode" and "Roselin, Roselin, Roselin, Rote", Schubert and the wonderful "Du Doppelgänger" by Schubert. These last are so distinctive and make such demands upon the singer that mastery of them is extremely difficult, and Mr. Cross was most highly praised for his interpretation and his wonderful voice.

Accompaniments were by Miss Maud McIlvaney of Denison.

## MISSIONARY SOCIETY

The ladies of the Methodist Missionary society met at the church Monday afternoon for a business session. In the absence of the president and vice-president, Mrs. Leland Green conducted the meeting. Mrs. Arthur Baskin led the devotional. The Missionary Bulletin was splendidly given by Mrs. C. E. Porterfield.

Next Monday afternoon they will meet at the church at 3:30 o'clock for Mission study.

## PRESBYTERIAN AUXILIARY

The Presbyterian Auxiliary met in circles Monday afternoon for a study of the women of the Old Testament with Ruth as their subject.

Circle one met with Mrs. George Mode with six present. Grape juice and cake were served by the hostess. Circle two met with Mrs. H. G. Kenney. The devotional was led by Mrs. Kenney. There were five in attendance. The hostess served delicious ice cream.

Circle three met with Mrs. Ben Atkinson with four present. The devotional was led by Mrs. Atkinson. The hostess served a salad plate.

## BAPTIST W. M. S.

The Baptist W. M. S. met at the church Monday afternoon with 35 present. A business session was held at which time reports from the officers and committees were heard. The excellent reports showed much progress being accomplished by the ladies. The ladies were urged to attend the District Meeting of the W. M. S. of the Austin District in Temple Thursday and Friday of this week.

Next Monday the meeting will be held in circles at 3:30 as follows:

Circle one, Mrs. Wm. Fanning.  
Circle two, Mrs. W. A. Beal.  
Circle three, Mrs. C. W. Bradbury.  
Circle four, Mrs. Ray Jenness.

The Sun Beams will meet at the church Sunday afternoon at 2 o'clock.

The Royal Ambassadors will meet at the church Sunday afternoon at 2 o'clock.

The Girl's Auxiliary will meet at the church Sunday afternoon at two o'clock.

## BRIDGE CLUB

Miss Ruby Lenghert was the charming hostess to the Bridge Club on Monday evening at the home of Mrs. J. L. Barmore.

The reception rooms were beautiful with pink and yellow roses for the occasion and table accessories carried out the chosen color scheme. Miss Martha Lou Hooks won high score and received a beautiful boudoir pillow. Prize for low score, a dainty handpainted handkerchief, was given to Mrs. Penn Wolf.

The hostess served pink and yellow

brick cream and angel cake squares with pink icing. Plate favors were sweetheart rosebuds. Special guests were Misses Martha Lou Hooks and Grace Eplen.

## MILAM COUNTY H. D. COUNCIL

The Home Demonstration Council which is composed of the Presidents, Vice-Presidents and Secretaries of the various Home Demonstration clubs of Milam County met for its regular meeting in the office of the Agent, Miss Bartholomew at 2 o'clock Saturday, April 2nd.

A short business session was held during which plans were discussed for Rally Day and the officers of the clubs were made responsible for their clubs for exhibits and other features for Rally Day. Plans and suggestions for Child Health Day on May 2nd was taken up by the council.

The council enjoyed excellent talks on Good Homes by Mrs. Henry Hefley and Mrs. J. P. Love.

In a very enthusiastic and delightful manner Mrs. Hefley told the council of National Good Homes Week and of its success in Cameron last year. The members were pleased to hear of the pleasure held in store for them which happened to be a tour of good kitchens in Cameron. The council was asked to take back to their club members any good ideas of good kitchens equipment or improvements they might see, then at the next council meeting, May 7th there will be a report of any improvements in the different communities represented.

With Mrs. Hefley conducting the kitchen party they were graciously and cordially received into the homes and shown the kitchens of the following ladies: Mrs. Hayden Lawrence, Mrs. Frank Monroe, Mrs. R. D. Brown, Mrs. Claude Triggs and Mrs. G. A. McDermott. Then to make the evening complete the council was given the pleasure of seeing Mrs. Hefley's lovely flowers and accidentally finding her to be a real gardener.

The council heartily thanks Mrs. Hefley, Mrs. Love and the ladies who so kindly opened their kitchens to them on Saturday, April 2nd from 3 to 5 o'clock.

## EASTER IS COMING

A hint of Spring is in the air. Small boys in the country districts turn their thoughts to the old swimming hole and wonder anxiously if the water is warming up. Their elder sisters, in country and city alike, turn their thoughts to glad raiment and modish millinery. Inspectors at Atlantic City and elsewhere give the broadwalks an overhauling preparatory to the annual promenade. Editors pull clippings from dusty pigeonholes and make assignments for the customary feature stories. The White House gardeners, more in sorrow than in anger, prepare for the annual egg rolling on the White House lawn. Easter is coming.

And the Western Union Telegraph Company is likewise making preparations. With the ever growing popularity on the Easter greeting message—the volume has nearly doubled in two years—the Western Union this year is making still more elaborate arrangements for handling the volume of Easter business. Indications are that the 24 per cent increase in Easter telegrams noted last year will be considerably exceeded, and increases also are looked for in the demand for messages to deliver flowers and packages. As last year, Easter Greeting Telegrams will be delivered on Special Artistic Blanks, in special holiday envelopes.

## LUNCHEON

Miss Inez Evans was the delightful hostess to a few of her friends at a noon day luncheon on last Saturday, arranged in honor of Misses Zinn Claire Brooks and June Eva Alexander of Temple.

The luncheon was planned by the hostess' mother, Mrs. Gus Evans, and a jolly good time and plenty of good

eats were enjoyed by this merry group of girls. Those participating were: the honorees: Misses Zinn Claire

Brooks and June Eva Alexander of Temple, Helen Blaylock, Gladys Davis, Lillian Mondrik, Florence Atkinson,

Dora Emily Moore and Inez Evans. In the afternoon a picture show party was enjoyed.

# Be a Credit to Yourself

Henry J. Byron, playwright and wit, once remarked that "a play is very much like a cigar. If it's good, everybody wants a box. If it's bad, all the puffing in the world won't make it go."

And credit standing is like that. If it is good, everybody wants to help us—we are a "safe risk." But let that standing be weak or questionable and all our assurances and promises to keep faith are of no avail—they "won't make it go."

If you appreciate the value of good credit standing you will ally yourself in a friendly and consistent connection with this big bank.

THE ESSEX SUPER-SIX SPEEDABOUT

Something new in motor cars is announced by the Hudson Motor Car Co., in the introduction of the Essex Super-Six speedabout, a two passenger car of the roadster type which Hudson heralds as "the fastest six cylinder car in the world per dollar of cost."

To assist in high speed performance the car is built along sweeping and rakish lines. The rear deck is streamlined like a speedboat, the lines curving smartly to a point in the rear. The regulation colors of the cars first manufactured is a bright and attractive green. Special color

combination are being asked for, however, and in a number of college communities students are ordering speedabouts done out in the varsity colors.

One of the first men interested in the speedabout was Bennie Oosterbaan, the University of Michigan all-American football star and captain. Oosterbaan paused in his practice of passing footballs to pass along to the Hudson-Essex organization the idea that the cars be trimmed in college colors. Other nationally known football stars have ordered cars especially trimmed.

The speedabout is a car designed especially for youth. Built for outstanding performance, its low center of gravity and perfect balance assure a high degree of roadability and safety. Unlike some roadsters, it was built with out rumble seats, because it was desired to achieve streamlines which would be impossible if the rear deck were broadened out. Hudson-Essex states that this car has a performing ability not matched by many cars costing five times as much. The car is unique on the American market.

#### COLORED DISTRICT INTERSCHOOL MEET TO BE HELD IN CAMERON

The attention of the public is here called to the District Meet for colored youth, which will convene in Cameron on Friday, April 8, 1927 with Milam Lee and Burleson Counties participating.

The meeting will open promptly at 9:00 o'clock and we expect 2,000 people to attend.

The program of the day will be arranged in the following order: Morning: spelling and industrial exhibits. Afternoon: games, field and track events. Evening: declamation, debates and music.

We extend to the citizens of Cameron and Milam County a hearty welcome.

O. J. Thomas, Director General.

#### OVER-WORKED

Cardui Helpful to South Carolina Lady Whose Health Gave Way.

Mrs. Letha Cabarles, of Chesnee, S. C., "did too much," and her "health gave way." She writes:

"I took boarders and, at the same time, worked in the mill. As a result, I had to stay in bed from overwork for eighteen days. I had bad pains... I got clear down and was very much depressed."

"I had read of where Cardui had helped other women suffering with troubles like my own, so I made up my mind to take Cardui, myself."

"I sent and got a bottle, and it did me so much good I took it on until I got entirely well."

Cardui should also prove helpful in your case. Try it. Ask your druggist.

#### SYSTEM CHOKED

Texas Was Helped by Use of Black-Draught.

Mr. James W. Burnett, who lives on Rural Route No. 4, Whitney, Texas is a great believer in Theford's Black-Draught for the relief of such common ills as indigestion and constipation. He writes: "Since I first found out about Black-Draught, I have never been without it in the house. For several years, I had been a sufferer with indigestion. Occasionally, my system would become thoroughly choked with poison, and I would have a real sick spell. Now I ward them off by being forehanded, and taking Black-Draught before they come, instead of after."

"We all use Black-Draught in our home, for constipation and indigestion."

Get a package today, and try Theford's Black-Draught the next time you are constipated. Sold everywhere. One cent a dose.

#### Drink Water If Kidneys Hurt

Take a tablespoonful of Salts if Back pains or Bladder bothers.

Too much meat may produce uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back, or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts, take a tablespoonful in a glass of water before breakfast each morning, and in a few days your kidneys may act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to help neutralize the acids in urine so it is no longer a source of irritation, thus often ending urinary and bladder disorders.

Jad Salts is inexpensive and can not injure; makes a delightful effervescent lithia water drink, and nobody can make a mistake by taking a little occasionally to help to keep the kidneys clean and active. Drink plenty of water at all times.

Cameron, Texas, March 31, 1927

We, the faculty and students of Cameron Colored High School extend our deepest sympathy to the bereaved family of Miss Ada Henderson.

Whereas: her service as a teacher in this school system has been an asset to the community intellectually, morally and socially; and whereas, in her demise we sustain a great loss, therefore be it resolved that we submit to the will of the almighty God who doeth all things well.

Be it further resolved that a copy of these resolutions be sent to the bereaved family, to the Cameron Herald, to the Cameron Enterprise, for publication and that one be left on record at the Cameron Colored High School.

Mrs. Lula Walker, guardian in the estate of Lennel Walker, was authorized to execute oil and gas on land near Rockdale. The annual report of W. A. J. Dunnam, guardian of the estate of Geraldine Dunnam, was examined by court and the estate was found to be in excellent condition. Guardian was complimented.

Mrs. Elizabeth Saddler and little son, Billie, of Edinburg, visited her mother, Mrs. Whites this week.

Mr. L. M. Henslee, of Caldwell, our newly appointed game warden, is evidently well qualified for the place, as he was born and reared in Burleson County, has been a sportsman and lover of the outdoors all of his life, served as sheriff of Burleson county for thirteen years and is well known throughout this district as a thorough gentleman and sportsman and as a capable officer.

Tom Mowdy of Dallas has been the guest of his mother, Mrs. W. T. Mowdy.

Miss Bess Wiley of Milano spent last week end with her parents, Mr. and Mrs. R. S. Wiley.

Mrs. Joe Renfro returned to her home in Waco Saturday after a delightful visit with her sister, Mrs. J. F. Guggolz.

#### Keep in Trim!

Good Elimination Is Essential to Good Health.

THE kidneys are the blood filters. If they fail to function properly there is apt to be a retention of toxic poisons in the blood. A dull, languid feeling and, sometimes, toxic backaches, headaches, and dizziness are symptoms of this condition. Further evidence of improper kidney function is often found in burning or scanty passage of secretions. Each year more and more people are learning the value of Doan's Pills, a stimulant diuretic, in this condition. Scarcely a nook or hamlet anywhere but has many enthusiastic users. Ask your neighbor!

#### CHINA IN HER ANTI-FOREIGN CRUSADE IS REFLECTED IN THE THREATENED BOYCOTT OF THE FORD MOTOR COMPANY BY THE RETAIL GROCERY HOUSES OF AMERICA.

The opening of the Henry Ford Grocery Store in Detroit with its cut in prices caused the threatened boycott of the Ford car as a grocery delivery and pressure was brought to bear on America's greatest wage payer, and price reducer until recently the Ford Company has announced that their grocery business had grown too big for them to handle. A company that has been big enough to handle the millions of Fords sold each year not big enough to handle a grocery store.

The continued operation of the Ford Motor Company Grocery Store would doubtless have meant millions saved to the masses of Detroit. To force it out of existence meant millions to the high profit grocery store.

It is hardly believable that the people of America will stand for long a boycott by the classes to the detriment and loss of the masses.

Has any group of businesses the right to boycott and bear down on an institution whose aim is the betterment of people by a reduction in the high cost of living?

#### Big Eaters Get Kidney Trouble

Take Salts at first sign of Bladder Irritation or Backache.

The American men and women must guard constantly against kidney trouble, because we eat often too much red meat and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus often ending bladder disorders.

Jad Salts is inexpensive; can not injure, makes a delightful effervescent lithia water beverage and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.

## Better Safe Than Sorry

Are your winter garments safe? Few people have not experienced the disappointment of finding moths had gotten into garments they never dreamed were in danger.

Dark garments worn for weeks or months accumulate a surprising amount of soil that is apparent only when removed by the solvents and modern machinery we use in cleaning them. The detrimental effect of soil on light washable fabrics, when left in them for some time is easily seen. But soil is no less injurious to heavy dark garments and offer an ideal breeding place for destructive moths.

Let us clean and store your winter suits, coats, dresses and furs for you during the hot summer months. There is no charge for storage. You pay only for the cleaning and pressing when delivered.

A phone call will bring our delivery car for anything you wish to put away.

Latest Tire Tread

IMPORTANT STEP

A new balloon tire of Goodyear manufacture, scientifically designed to eliminate rapid and uneven tread wear and increase road traction and durability, was announced this week by Hubert Hefley proprietor of Hubert Hefley Motor Company at Cameron and is now on display there.

Heralded as the biggest contribution to the automobile tire industry since cord tires were placed on the market, the latest Goodyear balloon tire comes as the result of two years of development and research work by the Akron company, according to Mr. Hefley who handles Goodyear tires locally.

"Shortly after the balloon tire was introduced, Goodyear began experimenting with tread designs," Mr. Hefley stated. After 80 different treads were constructed and tested for thousands of miles, this new tread was evolved which the builders declare is the finest tire built in more than 25 years of tire production experience.

"The major advantages of the new Goodyear All-Weather balloon tire are pronounced and include slow, even tread wear eliminating "cupping" and uneven wearing away of treads so noticeable in many balloon tires, together with improved traction and resistance to skidding.

"We are entirely convinced that the new balloon tire is the longest wearing and most economical and trouble-free tire that has ever carried the Goodyear name," Mr. Hefley declared.

The new tire, in various balloon sizes, will be on display in the show room of the Hubert Hefley Motor Company Mr. Hefley said.

DEPUTY GAME WARDEN'S NOTICE TO THE PUBLIC

I have been appointed and qualified as Deputy Game Warden for Washington, Burleson and Milam Counties as of April 1, 1927.

I ask the co-operation of all citizens of these counties to the end that the fish and game laws of Texas be properly enforced; it depends largely upon your help in these matters. If we do not protect the fish and game it will not be long until we will have no fish and game. I will be glad to answer all questions about the law on these subjects, and will as soon as possible get the laws and distribute them over my territory.

It is my intention to keep the public posted through the press in advance of the opening and closing dates of the season on the different kinds of game and fish. At present, the season is closed on all hunting and will be until the first of May when the season will be open on squirrels. During the months of March and April no one is supposed to have in his possession a bass or white perch fish and it is also unlawful to fish with artificial bait of any kind or a net or sein over twenty feet in length during these months.

Respectfully,  
L. W. Hensley, Caldwell, Tex.

## JOHN WORLEY'S TROUBLE MAY BE SERIOUS

John Worley left Saturday for Temple where he entered the hospital as a patient and is undergoing a rigid physical examination. He has suffered acute pain from the stomach region indicating appendicitis or abscess of the stomach. An examination Sunday given him by the hospital physicians removed all suspicions of appendicitis but a final diagnosis of his case has not yet been made at the time of closing the forms for this issue of the paper. X-Ray pictures were taken Monday and Tuesday and further study of Mr. Worley's trouble will be made before any form of an operation will be made. Mrs. W. W. Clark, Mrs. Jim Clark and Mrs. E. C. Moseley, sisters of Mr. Worley, visited him at the hospital Tuesday, making the trip with Dr. E. L. Laurence and Allen James as far as Temple while the latter two were en route to Waco on business. Mrs. John Worley and George Worley also visited Mr. Worley at the hospital Tuesday. Mr. Worley's many friends here and at

San Gabriel are very solicitous concerning his condition and hope for his early recovery and return to his home.—Thorndale Champion.

Constipation!  
How to Keep  
Bowels Regular

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated men, women, children, and particularly old folks, had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all headaches, biliousness, indigestion and stomach misery, he did not believe that a sickening "purge" or "physic" was necessary.

In Dr. Caldwell's Syrup Pepsin he discovered a laxative which helps to establish natural bowel "regularity" even for those chronically constipated.

Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it never gripes, sick-

ens, or upsets the system. Besides, it is absolutely harmless, and so pleasant that even a cross, feverish, bilious, sick child gladly takes it.

Buy a large 60-cent bottle at any store that sells medicine or write "Syrup Pepsin," Monticello, Illinois, for a FREE SAMPLE BOTTLE and just see for yourself.

## THE HABIT OF THRIFT

Lots of people expect to acquire all  
their good habits in their second child-  
hood.And one of the good habits long  
put off is thrift.Often this habit does come in sec-  
ond childhood. With appetites and  
passions burned out of the decaying  
mind and body, old men may find  
themselves freed from temptations  
and wrongly consider their condition  
find its environment unhealthy and  
forced upon one by nature, is apt to  
to curdle into penurious meanness.But thrift, like any other "virtue"  
sweet and fruitful it must be embrac-  
ed while the mind and body are heal-  
thy and vigorous.Thrift is a composite quality. It  
embraces within itself nearly all of  
the great virtues. It implies industry,  
prudence, forethought, self-denial. It  
certainly has no relation to niggard-  
liness or meanness.Some men would let their grandmo-  
thers starve to death for the sake of  
a few dollars. That cannot be called  
thrift.And virtue carried to excess be-  
comes a vice and is no longer virtue.  
Thrift that does not take into part-  
nership honesty and charity sours in-  
to covetousness and avarice.True thrift is the opposite of thrift-  
lessness, prodigality, improvidence  
and waste.Thrift means better homes and bet-  
ter food, more comfort and enjoy-  
ment, less waste and less anxiety.Out of it grow quickened energies,  
firmer courage, more stalwart thought  
and hope, more orderly citizenship,  
education and a good chance in life  
for the children, and the independence  
and self-respect that lift aimless,  
hopeless drudges up to true manhood.

## THE IDEAL CITIZEN

An ideal citizen is the one who sees  
clearly and ever something good in  
the city and never loses the opportu-  
nity to spread that good news  
abroad that others might derive the  
benefits therefrom, whose unselfish-  
ness prompts him to want others to  
share opportunities, health and plea-  
sure which his home city offers.Loyalty is the first requisite for  
the ideal citizen. The love for the  
place and his neighbors which dismis-  
ses the thought of self interest or  
policy and resolves itself into the  
knowledge of duty when he does all  
in his power to make the city a better  
place in which to live.There are three distinct attitudes  
which a citizen may assume toward  
the place in which he lives, which fur-  
nishes him food, shelter and associa-  
tion for himself and family, to boost  
to remain quiet or to knock. The  
booster is that ideal citizen who is  
never forgetful to the duties which  
is due the home city. He is ever  
found at the front when a movement  
is launched which might tend to the  
advancement of the interest of the  
city. While others see darkly, to  
him good is visible at all times. The  
quiet citizen is satisfied to let the  
neighbor do the work and content to  
lull the city asleep and let it rest. The  
knocker is the man who is without a  
country. There is no room for him  
anywhere, his presence dampens the  
enthusiasm of every man or group of  
men who unfortunately come in con-  
tact with him. Having no faith in  
his own ability to go forward, he natu-  
rally lacks faith in his home city to  
do so.You have the chance to belong to  
either of the three classes. If you  
are a booster, your neighbor knows it  
well and will boost you. If you are  
aligned with the quiet class, you will  
not be regarded one way or the other  
for the man who selects to steer in  
the middle of the stream, gets nosupport from either side. If unfor-  
tunately you are a knocker, get ready  
to be knocked, for eventually it is  
coming to you. As you give, so will  
it be meted out to you.Cameron would be an ideal city if  
only there were more ideal citizens.  
Let's have them.

## THE IDLE WORD

The ideal word that stings is as  
old as human speech. Spoken  
thoughtlessly or spoken in a moment  
of irritation, it says more than the  
speaker meant. At least it says more  
than he would have said if he had  
taken second thought. Too often in  
a hasty moment one who really would  
not for world's cause lasting hurt does  
just that because he reaches for the  
first remark that will register.These idle words go deep, deep in-  
to the heart and memory of the one  
to whom they are addressed. There  
is no way of reaching this harm by  
laws and courts. There is no way of  
resolving that one will never say the  
thing that causes needless hurt, ex-  
cept by resolving to build up a habit  
in one's life of saying only things un-  
til quiet reflection has shown the need  
of something else.This is not a test for weaklings, a  
counsel of meekness to the point of  
being trodden upon. It was not a  
weak man who prayed, "Set a watch  
before the door of my lips," nor a  
fool who wrote, "She openeth her  
mouth with wisdom, and in her ton-  
gue is the law of kindness."Home: Sleeping quarters adjacent  
to a garage.We can imagine nothing more tri-  
vial or unimportant than discussion  
of who was Cain's wife?The views of the sociologist who  
contends that spanking is less harm-  
ful to a child than a scolding will not  
be endorsed by those of the spanking  
age.

## DANIEL G. DAVIS, 90, DIES AT SHARP HOME

(continued from page 1)

undertaking firm of Cameron direct-  
ed the funeral. The body was interred  
in the Lilac cemetery in the late  
afternoon. The same golden sunlight  
that had bathed battlefields on which  
he had wrought as a soldier touched  
the oaks and the flowers as his place  
of rest was marked and those who  
had known the inspiration of his life  
looked for solace to the monument  
his memory rears in the hearts of all.

### Native of Missouri

Daniel G. Davis was born in Boone-  
ville, Missouri, November 24, 1836.  
His youth was without incident save  
the experiences of those men who  
came up in the formative period of  
American history. He was the son of  
Joseph and Fannie Franklin Davis,  
pioneers in the settlement of Mis-  
souri. His father was born in Ire-  
land, his mother a native of Missouri.  
The father died in Missouri and short-  
ly thereafter with his widowed mother  
he came to Texas in 1845.Holding within his heart the stur-  
diness of an Irish-American patriot  
father, he succeeded to responsibilities  
imposed by the early environs of  
those who came to the Southwest in  
quest of fortune and to live its ro-  
mance.The mother and her patriotic son  
came by boat to Galveston in 1845  
and from thence to Richmond in Fort  
Bend county. The youth grew to  
manhood at Richmond and like other  
men of his day turned his attention  
to the cattle industry the leading in-  
dustry of the day. Farming was lit-  
tle known in that day, the prairies  
and broad plains calling to the sun-  
burned men who lived in the saddle  
and defied the outlaws.

### Joins Terry Rangers

He was one of the early trail driv-  
ers, taking many herds up the trail  
to Kansas markets. It was while on  
one of these trips up the cow trail  
that the Civil War developed. On  
his way back from the market with  
other cowboys he enlisted in Terry's  
Texas Rangers at Beaumont with Col.  
Terry in command and went away to  
war. In the first battle of the war  
in which the gallant rangers took part  
Col. Terry was killed. Dan G. Davis  
was beside the Colonel when he was  
killed. The Texans were outnumbered  
by northern troops.

### Goes With Johnston

After the battle the rangers were  
mustered in under Albert Sidney  
Johnston and Mr. Davis was in the  
battle of Shiloh where Johnston was  
killed. The death of the general so  
affected his men that when the union  
troops were speedily re-enforced they  
lost the battle temporarily but when  
Bureaugard took command the Sou-  
therners rallied and drove the enemy  
in the river and back to Corinth.Shortly thereafter and in the suc-  
ceeding years of the fateful strugglehe took part in many of the battles.  
He was captured only one time and  
then by a Union officer in Kentucky.  
The officer disarmed him and took  
him to a nearby farm house. The of-  
ficer motioned him to a pan of water  
that he might bathe his hands and  
face but the Texan outwitted the  
northern man. He declined and with  
courage asked the officer to proceed  
first. When the officer set his rifle  
down. Mr. Davis picked it up and  
struck the officer a blow, mounted his  
horse and rode away.He had many narrow escapes. At  
Murphreesboro he was on picket duty  
with orders not to fire but was faced  
by a sniper. The quick wit of the  
man of the plains combined with  
the Ranger's deftness at firearms saved  
him again. From that exchange of  
fire the battle opened.When Lee surrendered at Appamat-  
tox he mounted his horse and came  
to Texas, enjoying the distinction of  
never having surrendered. He came  
back to Richmond and was a hero in  
the reconstruction days. His cattle  
interests were lost during the four  
years war and he set about to re-  
cuperate his fortune.With the advent of union troops,  
among them negroes, like other men  
of the South, he resented deeply the  
intrusion of the Northern troops and  
the insolence of the negroes. At  
Richmond one day he fought for the  
honor of Southern ladies who were  
pushed from the sidewalk by three  
negro troopers. In the exchange of  
shots between himself and the sol-  
diers three of them were killed. He  
was arrested and taken to Houston  
and placed in a log jail.

### Rescued By Comrades

Facing court martial and death he  
determined to die if need be in  
loyalty to the traditions of  
the South. One dark night  
as the storm clouds gathered and the  
wind and rain beat about the log jail,  
a crowbar was thrust in and he set  
about to escape, prizing away some  
logs and crawled out into the dark.  
Among the trees a short distance  
away his rescuers who proved to be  
his trusty comrades of the Ranger  
service, took him and placed him on  
a horse and despite his shackles he  
rode swiftly away to safety. At day  
break he came to a farm house where  
he met an aged man and his wife.  
They filed off the chains and he rode  
away.More than 20 years ago at Sharp  
he met one of the men who rescued  
him. The aged comrades in arms em-  
braced in affectionate greeting, then  
turning the conversation told many  
stories with which both were familiar.Leaving Richmond he came to Wil-  
liamson county in 1866 and became a  
foreman on the Tom Lane ranch, a  
large cattle range. He was married  
in 1871 in Milam County. Julia  
Graves became the bride of the noted  
pioneer and at the age of 35 he set  
about to make his fortune in the cat-  
tle business.

### Loses Eyesight

Three years later while out on the  
range one day he suddenly became  
blind. His eyes filled up with water  
while cutting cattle from a herd and  
later blood gushed down his face. For  
a number of years he was practically  
blind but some 15 years later he re-  
covered his sight and his eyes seem-  
ed to improve as he grew older, al-  
though his sight was impaired all the  
years that followed.While on the Lane ranch it became  
his duty to face cattle rustlers and  
he finally broke up the stealing. He  
bought out Lane and engaged in the  
business himself. He came to Milam  
County and settled in 1871, on the old  
home place at Sharp where he pur-  
chased 200 acres and from this pur-  
chase has grown a large estate with  
lands also in Southwest Texas.Uncle Billie Jackson of Bartlett  
a life long friend of Dan G. Davis  
was at the funeral and recalled inci-  
dents of their trail days. They went  
up together. Dan G. Davis enjoyed  
the distinction of being the only  
known cowboy to rope a buffalo.  
This occurred on their last trip up the  
trail to Wichita. It was in the Indian  
territory. A large male buffalo was  
lassoed, the rope falling over the  
shoulders. Horse and rider were drag-  
ged over the prairie and his comrades  
seeing the unequal struggle shot  
the buffalo. Not being satisfied, the  
next day he roped a cow buffalo and  
was more successful. He subdued the  
beast and yoked her to a work ox  
and drove them into Wichita amid  
cheers like those greeting Jim Neigh-  
bors in "North of 36" when the great  
horned steer, "Old Alamo" strode up  
the street to the delight of Will Bill  
Hick and several hundred pioneer  
citizens of the town.

### Settles in Milam

Uncle Billie Jackson, ten years  
younger, is the last known survivor  
of the immortal band who fought and  
triumphed and knew laughter and  
hardship on the plains together.Settling down in Milam County in  
1871 after an eventful career, the  
pioneer set about with his farming  
interests.He is survived by his widow, Mrs.  
Julia Davis, 77; two daughters andfour sons as follows: Mrs. Corine  
Davis Pace of Hillsboro; Mrs. Julia  
Davis of Dallas; Judd G. Davis, May-  
or of Cameron; Will Davis, Fred Dav-  
is and Dan G. Davis of Sharp, John  
Davis another son, died in 1919. A  
grandson, John Hopkins Davis, son  
of the late John Davis, now lives with  
his uncle, Judd G. Davis of Cameron.  
In addition 11 grand children and 2  
great grand children survive him.Will Davis at Sharp has been lar-  
gely in charge of the estate which  
has grown to a fine business in  
Sharp and 2500 acres of land near  
by.The pioneer was hearty and hale  
until he was 85 years old, having his  
first illness requiring a physician. He  
was a member of the Lilac Baptist  
church for 52 years.The pall bearers were six nephews  
as follows: Preston Graves, Rufus  
Graves, Geo. T. Graves, Henry Graves,  
Paul Graves and Roger Gilliland.Daniel G. Davis, the pioneer, has  
left to his family and fellows, the  
priceless heritage of a life lived in  
the hallowed auspices of honored en-  
deavor, rich with achievement and  
deeds of valor, sublime in fealty to  
Southern tradition and chivalry and  
his memory is immortal in the hearts  
of men.

## CARD OF THANKS

We sincerely appreciate the assist-  
ance of our friends and neighbors  
during the illness and death of our  
beloved husband and father, Daniel  
G. Davis. We take this method of  
extending our thanks to all who  
came to us in that hour of grief to  
speak words of consolation and to  
help us bear up under the burden of  
our sorrow. Every word spoken in  
sympathy and every act of kindness  
and consideration is appreciated be-  
yond our power to express. Espe-  
cially do we want to thank those who  
gave floral tributes. They were  
many and beautiful and we are grate-  
ful for them and all other expressions  
of sympathy.

DR. W. B. CALDWELL  
AT THE AGE OF 83

To Dr. W. B. Caldwell, of Monticello, Ill., a practicing physician for 47 years, it seemed cruel that so many constipated men, women, children, and particularly old folks, had to be kept constantly "stirred up" and half sick by taking cathartic pills, tablets, salts, calomel and nasty oils.

While he knew that constipation was the cause of nearly all headaches, biliousness, indigestion and stomach misery, he did not believe that a sickening "purge" or "physic" was necessary. In Dr. Caldwell's Syrup Pepsin he discovered a laxative which helps to establish natural bowel "regularity" even for those chronically constipated. Dr. Caldwell's Syrup Pepsin not only causes a gentle, easy bowel movement but, best of all, it never gripes, sick-

ens, or upsets the system. Besides, it is absolutely harmless, and so pleasant that even a cross, fidgety, nervous, sick child gladly takes it.

## HASSELL, LEAVING DEATH CELL, ADVISES WOMEN TO READ WRITINGS OF PAUL

Huntsville, March 30.—12 hours after he was to have been electrocuted, George Hassell, convicted slayer of 13 persons, Friday walked out of the penitentiary here into the sunlight which he once was doomed never to see again.

He did not go out to freedom, however, but to a North Texas jail to remain pending the appeal of his case. What jail was to receive him was kept secret by the prison warden and Sheriff J. H. Martin of Palmer county, who took Hassell away.

### Jail Kept Secret

"It was deemed inadvisable to return him to Farwell, where he was convicted," said Sheriff Martin, "so we are taking him to a strong jail in a North Texas city for safe-keeping awaiting the outcome of the appeal."

Hassell was handcuffed to a deputy

sheriff accompanying Martin and was removed from Huntsville on the afternoon train. The man, convicted of the wholesale murder of 13 members of his family, was placed in the state prison 60 days ago sentenced to die at midnight Thursday, before his appeal was acted upon. Then after the appeal was granted, Governor Dan Moody deferred the execution.

### Advices Women

"How did you spend the hour originally set for your death?" Hassell was asked Friday.

"Sleeping like a log," he answered adding that he had eaten a hearty breakfast on the first day of his extended lease on life. Hassell said he had read the entire New Testament of the Bible during his incarceration, and found the fifteenth chapter of Corinthians the greatest part of the

book. He advised all women to read the eleventh chapter of Corinthians, which he said dealt with bobbed hair and such things.

While still willing to discuss his crimes rather freely, Hassell appears to have sobered considerably during the past few weeks of his imprisonment and to have a more serious concern for life and the hereafter. The powerful man is beginning to show the effects of his confinement.

### Hassell Held In Houston Jail

George Hassell of Farwell, confessed slayer of 13 persons, who gained a second reprieve of 30 days early in the week from his sentence of death for murder of his wife and nine stepchildren in Farwell last January was in the Houston city jail Friday night on a "stopover" en route "somewhere"—officers would not name the place.

Reports had it he is to be placed in a "safe North Texas jail."

The multiple slayer, who, luring his nerve-trying stay at Huntsville talked frequently and freely of himself and his case, was sullen and reticent after he arrived here from Huntsville.

"Look it up in the records," was all he would reply to reporters' queries. Then he retired, scowling forbiddingly, to the farthest corner of the barred chamber and gazed out of the window.

### SHERIFF'S SALE

#### THE STATE OF TEXAS

County of Milam,

## OUR REVIVAL MEETING

Because of the Chataqua it has been necessary to change the date of our Revival Meeting, making the meeting begin on May the 29th. That

will be a conflict for one day with the High School commencement, the last service of the high school will be Monday night, and then we'll go straight on with the meeting, closing the meeting on June 12th and the Chataqua will begin on June 16th.

## THREE 100% CLASSES

Grady Cooper's class of 112 year old boys was 100 per cent last Sunday in everything. Mr. W. B. Fancher's class of 13 year old boys was 100 per cent in everything. Larey Hackelbeil's class of 15 year old boys was 100 per cent in everything also.

## SUNDAY SCHOOL OFFERING LAST SUNDAY \$49.29

The junior department and the primary department reached 25 per cent of the goal set for them for the month of April.

We have only four Sundays in

which to reach our goal, we should reach 25 per cent per Sunday. The adult department 14 per cent; the senior department 8 per cent; Intermediate department 19 per cent; Junior department 25 per cent; Primary department 25 per cent; Beginners department 18 per cent. The average per cent for the entire school was 18 per cent.

We ought to go over this next Sunday to bring it up to the average of 25 per cent.

## ANNOUNCEMENTS

Next Sunday evening there will be a play given by the young people of the church and concluded by a splendid song service by the choir. There will not be a sermon preached.

W. M. S. ladies will meet next Monday at 3:30 o'clock for Bible Study at the following places:

Circle one with Mrs. W. M. Fanning

Circle two with Mrs. Will Beal.

Circle three with Mrs. C. W. Bradbury.

Circle four with Mrs. Ray Jenness.

In next week's issue we will give the list of new members; those who have come in since January 1st. We are happy to have people joining the church regularly. We had six additions last Sunday.

## Former Cameron Boy Makes Wicker Sets

Miss Mollie Moore is in receipt of a number of pretty wicker novelties sent her from Mrs. W. G. Harbin of Center Point. They were made by Paul Harbin, formerly of Cameron. The collection consists of reed serving trays, vases and other articles offered at exceedingly low prices.

Paul has been on crutches all his life. He is a talented musician and is financing his expenses selling these reed articles which he made himself.

The Friendly Bible Class of the Methodist church has offered to assist Miss Mollie Moore in disposing of these articles. Those wishing to make purchases may give orders to Miss Mollie Moore.

Paul will be remembered by many in Cameron. He is now about seventeen years old and is one of the best students in the school at Center Point.

## Government Loans To Veterans Now Direct From Washington

A. F. Mitchell has received notice from the government that loans on bonus certificates are now being made direct from the department at Washington.

Blanks for the loans can now be had from the postmaster at Cameron.

Mr. Mitchell has been very active in settling claims for veterans and assisting them in getting their loans. The Citizens National Bank of Cameron has loaned a large volume on these certificates.

The letter follows: Beginning April 1, 1927, this office will make loans direct to holders of Adjusted Service Certificates upon the receipt of Form 1185, properly executed, to which should be attached the Adjusted Service Certificate.

The Postmaster General has distributed a supply of these note forms, No. 1185, to each postmaster, giving instructions as to their disposition, also the manner of subscribing to the certificate of identity. It is believed that the information on these forms is self-explanatory. However, any additional information which you may require will be furnished you by this office.

Veterans desiring to make loans on their Adjusted Service Certificates should not present them to this office in person but should mail in the form, properly executed, with his certificate attached thereon and checks issued on these loans will only be given to the veteran through the mail.

Very truly yours,

S. C. Kile.

## Preserve Your Health for Your Children's Sake!

Texarkana, Texas.—"About four years ago my health was very poor and had been so for a long while. I suffered with pain in my side, back and head and nothing gave me any permanent relief until I took Dr. Pierce's Favorite Prescription. A few bottles of the 'Prescription' relieved me of these distressing aches and pains and my general health became good. I am glad to recommend the 'Favorite Prescription' to other sufferers."—Mrs. F. ## Old Tax Receipt Shows Increase In Land Values Here

An item in Sunday's issue of the Temple Telegram mentioned an old tax receipt issued by John Beal, sheriff & tax collector of Milam County in 1840 from the old county seat at Nashville, on the Brazos. The receipt was issued to Col. Wm. C. Sparks, a pioneer citizen, grandfather of Sam Sparks of Austin, for \$23.00 State and County tax on a league of land, containing 4,428 acres on Little River near the present village of Sparks in Bell County, which was then in Milam County and was a choice selection from the unsettled domain of Texas. It is of interest that a grandson of this pioneer tax collector, Dan Tyson, is also writing tax receipts.

Mr. Tyson is the efficient tax collector of the city of Cameron, however it will be observed that the present tax rate is slightly higher than

his grandfather collected from the citizens, but he still gives service with a smile.

## BREAK CHEST COLDS WITH RED PEPPER

Ease your tight, aching chest. Stop the pain. Break up the congestion. Feel a bad cold loosen up in just a short time.

"Red Pepper Rub" is the cold remedy that brings quickest relief. It cannot hurt you and it certainly seems to end the tightness and drive the congestion and soreness right out.

Nothing has such concentrated, penetrating heat as red peppers, and when heat penetrates right down into cold, congestion, aching muscles and stiff joints relief comes at once.

The moment you apply Red Pepper Rub you feel the tingling heat. In three minutes the congested spot is warmed through and through. When you are suffering from a cold, rheumatism, backache, stiff neck or sore muscles, just get a jar of Rowles Red Pepper Rub, made from red peppers, at any drug store. You will have the quickest relief known. Always say "Rowles."

### LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will know.

"The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect."

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

### BUSINESS WOMEN HEAR ASTROLOGY DISCUSSED

ANNA YOPP OF WACO GUEST  
OF CLUB AT MONTHLY  
MEETING HERE

Decidedly the most interesting meeting of the season for the Business and Professional Women's Club was held Tuesday evening at the Country Club. A beautiful Easter motif was delightfully carried out in the decorations and appointments, which was under the direction of Miss Theresa Jensen.

Easter lilies, roses, Indian blankets, and blue bonnets were featured in most attractive designs. A pretty spring flower garden in landscape style in the East end of the spacious hall was much admired. A green plot with low fence with a pretty vine covered lattice gate with swinging baskets from either end, made a delightful scene where later a little fairy in an airy pink costume trimmed with tinsel, arrived wearing a crown and carrying the magic wand, in the person of Imogene Beach, who came in to revel in the beauty of the garden. From the other side through a

door, came a dear little white bunny, hopping, in the person of little Daisy V. Olson. She brought in two baskets of Easter eggs that were hand-painted faces with the names of many well known beaux of Cameron. Bunny and the little fairy passed the egg around to the guests, each taking one. These faces were cleverly painted and some bore resemblance of those known to many. Tall whip candles, resting in gold candle stands, shed light from mantle and piano over this beautiful scene.

Twelve tables were placed in the hall bearing monogram covers, centered with a bouquet of blue bonnets resting in green grassy nests where Easter egg candy and tiny bunnies were laid. Gleaming silver and snowy napkins completed the table decorations, where a delicious menu was served consisting of fried spring chicken, cream gravy, French dressed potatoes, salad on lettuce leaf, buttered sandwiches, sliced tomato topped with sweet peppers, ice tea with lemon. Second course Ambrosia topped with whipped cream and red cherries, served in orange cups with reed handles, bowed in white. Plate favors were tiny white bunnies.

At the close of the feast Miss Annie Stallworth, chairman of this month's committee, presided and conducted an interesting query: "Should you ever become Governor of Texas, or even Mayor of Cameron, what would you do?" The answers were varied, and some extremely laughable answers were given running from the sublime to the ridiculous. The President read a letter from Belton extending an invitation to attend a joint banquet to be held at the Park Hotel, Belton, April 19th.

The club voted to give as prizes \$10.00 to the First; \$5.00 to the second; \$2.50 to the third person raising the best vegetable garden in Cameron. To be based on the greatest variety of vegetables, the cleanest and best tended. The contest is open to all citizens of Cameron, and those wishing to enter the contest must report to the President of the Business and Professional Women's Club not later than May 1st. Competent judges will do the judging some time in May.

The surprise of the evening for the club was the presence of Mrs. Anna Yopp, of Waco, who is an astrologist. At the early age of seventeen she attended school of Astrology in London, England, and holds a diploma from the Academy of Astrology at Los Angeles, California. She took a post graduate course in astrology at Badenburb in Old Mexico, and conducts a "Human Nature Clinic" in the city of Waco.

Mrs. Yopp gave an interesting lecture on astrology and the relation the stars bear upon the human life, and gave some splendid verbal charts to many in the audience. Mrs. Yopp is a pleasing speaker and convinces her hearers that she is well fitted in this work, and possesses wonderful knowledge of astrology. She remained over night and was the guest of the club, leaving for her home next morning.

Guests present beside club members were: Mrs. Anna Yopp, of Waco, Mrs. Hallie Wofford, Mrs. Frank Monroe, Mrs. N. H. Butts, Misses Tipp Messimer, Vera Cook and Gladys Harris, teachers at Buckholts, Misses Susie Butts and Mary Louise Elliott.

Committees for next month's entertainment: Mrs. Perry Wilkerson, chairman, assisted by Mesdames Bud-die Wilson, Joe Casey, Emma Moore and Miss Annie Woolley.

Come to Lu Meyers, the Old Time Blacksmith, for all kinds of plows, sweeps and shovels.

### THE STATE OF TEXAS

To the sheriff or any constable of Milam County, Greeting.

You are hereby commanded to summon Ernest Neal, by making publication of this citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, to appear at the next regular term of the District Court of Milam County, to be holden at the court house thereof in Cameron, on the 2nd day of May 1927, the same being the 1st Monday in May 1927, then and there to answer a petition filed in said court on the 30th day of March 1927, in a suit, numbered on the docket of said court No. 9715, wherein Clemma Neal is plaintiff and Ernest Neal defendant said petition alleging: Statutory grounds of three years abandonment.

Herein fail not, but have before said court on the said first day of the next term thereof, with your return thereon, showing how you have executed the same.

Witness, Penn Wolf, Clerk of the District Court of Milam County, Texas.

Given under my hand and the seal of said court, in Cameron, this the 30th day of March A. D. 1927.

Penn Wolf,  
Clerk of the District Court,  
Milam County, Texas.

### How Doctors Treat Colds and the Flu

To break up a cold overnight or to cut short an attack of grippe, influenza, sore throat or tonsillitis, physicians and druggists are now recommending Calotabs, the purified and refined calomel compound tablet that gives you the effects of calomel and salts combined, without the unpleasant effects of either.

One or two Calotabs at bed-time with a swallow of water,—that's all. No salts, no nausea nor the slightest interference with your eating, work or pleasure. Next morning your cold has vanished, your system is thoroughly purified and you are feeling fine with a hearty appetite for breakfast. Eat what you please,—no danger.

Get a family package, containing full directions, only 35 cents. At any drug store. (adv)

## Corns

Lift Off—No Pain!

Doesn't hurt one bit! Drop a little "Freezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the foot calluses, without soreness or irritation.

### Touring the World

LIEUT. COL. E. ALEXANDER POWELL, noted war correspondent, travelog writer and globe trotter, is engaged in a tour of the world via America's most modern and popular means of travel—the automobile.

With this American car, and accompanied by his wife and daughter, Col. Powell spent the winter visiting the islands in the eastern Mediterranean. Material gathered there will be included in his book, "Mediterranean Moorings," which he is writing on route. He will proceed through Finland, Poland, Czechoslovakia, Latvia, Lithuania, Estonia and others of those newer countries. The party will drive to Constantinople and thence by ferry across the Bosphorus. The tour will then take them down through Turkey and

Syria to Damascus or Jerusalem. Arabia, Persia and India will be visited as the tour proceeds. Col. Powell will drive entirely across China and sail from there for California, completing a trip entirely around the world and traveling by automobile while on land.

The Buick brougham used by the Powells on the trip is standard in every respect except for items of special equipment. It was chosen because of the world-wide Buick authorized service which is available wherever automobiles are used.

Col. Powell is one of the best equipped men in America to undertake this long tour. He holds the record of being the only man to drive from Paris to India, crossing the Sahara Desert. He is also the first man to drive a car from Mexico to Alaska, accomplishing this feat in 1913.

### You don't take a bath in a basin of water

Water is so cheap you feel you can use all you want.

And electric light, too, is so cheap that it is no economy to use less than you need. It is the only service that comes into your home that is cheaper today than it was ten years ago.

Don't try to make a "basin" of light do the work of a "tubful."

## COLLINS

(continued from page 2)

longs to and is the property of the Mexican nation.

The last ten clauses set forth and define the penalties for the breaking of the Constitution or a refusal to abide by it; so you see the Constitution of Mexico is a constitution which denies and rejects all of the great God given rights of life and liberty and freedom and justice.

Where does the Constitution come from? Is there any other document like it? Only one other in the whole world is like it, and that is the Constitution of Red Russia, which is almost word for word the same; it comes from what is called the hot beds of bolshevism and anarchy and communism.

There are three great obstacles that block the pathway of communism. What are the obstacles according to communism that block the pathway?

First: The first one declares Marks is religious doctrine; that drug or poison of the people and in all of the propaganda today of Russia, Red Russia, is the thought that religion is the drug on the people, and so under Red Russian rule and Red Mexico, religion and the exercise of religious rights are absolutely prohibited and denied and scorned.

The second obstacle which he declares stands in the way, is the sanctity of marriage will be abolished, and today under their constitution the registration of marriage is not carried out.

Today under the Red Constitution of Russia there is no such thing as private property, all property belongs to the government, and today under the Red constitution of Mexico, the attempt is being made to abolish private property, and that is why our own government is concerned in the Mexican question, because of the attempt and efforts to take away private property that legally and honestly belongs to them. So we see that the Constitution of Mexico denies all of these great God given liberties and justice and freedom.

All freedom comes from God, and may be summed up in five classes.

The first is the freedom of persons. God declared that every human being was endowed with a soul.

The second is the freedom of trial. Every human has a right to protect their innocence at all times against any charge that may be made against them by a trial by jury; yet under the Constitution of Mexico, freedom and the right of trial by jury is denied, prohibited and rejected.

The third great freedom is the freedom of worship. Religion and religious freedom. God gives a free will and conscience within every human breast to worship Him according to the limited dictates of his own mind; and the manner in which they should worship and protection of that is one of the greatest things of all time, and the greatest boon to mankind; yet today, under the Mexican Constitution it is denied and prohibited.

The last great freedom is the ownership of private property. Private property is the natural right of every one; if you own property, the United States rightfully approves that you have a natural right to such ownership; the ownership of property is a natural right and the denial of that ownership stands against thought and reason, and yet that is against the Red Constitution of Mexico, and the Red Constitution of Mexico stands opposed to the Ten Commandments of God, because it denies and prohibits all of these great God given guarantees of life and liberty and justice and freedom and the pursuit of happiness.

In any discussion regarding freedom on Constitution should never be neglected or overlooked, and that is our own Constitution. The Constitution of the United States is the greatest guarantee of human freedom and liberty ever written in the history of all civilization; it stands like Holy scripture. It ought to be made a fireless companion in every home, so that we and our children might study it and learn what great God given guarantees are contained in our Constitution. It has a preamble that in it has a simple statement of 52 words, which should be learned and memorized by every intelligent man and woman in this country today. It is this:

"We, the people of the United States, in order to form a more perfect union, establish justice, insure

domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do ordain and establish this Constitution for the United States of America.

That is the substance of the Constitution, freely set forth in 52 simple words, but that is not all. Why? Because when our forefathers adopted the Constitution in 1787 they adopted a Constitution with Seven Articles; these Articles can be set forth as follows:

First: The law making powers; that is, the Legislative body.

Second: The Executive Powers, or the enforcing power.

Third: The interpreting power; what they mean by that is the Supreme and inferior courts of our land.

Fourth: In regard to State's Rights, the rights and duties of States to each other, and the duties of the citizenship of the state.

Fifth: In regard to the Members of Congress; how the Constitution can be amended.

Sixth: Of vital importance, especially in these days, when you hear so much about the League of Nations, and more especially when you know we have a treaty with Mexico. It says the Constitution of the United States and the Treaties of the United States are the Supreme laws of the land. So remember, in the future when you hear of our country entering into a Treaty, after that has been made, no law of the land is superior to that; that Treaty stands on an equality or equal basis with the Constitution of the United States as supreme law, as a supreme law of the United States. That is very important to remember in these days.

Seventh: That is a simple statement that nine states can ratify the law and it becomes the supreme law of the land.

That is the Constitution of the U. S. But that is not all, because 2 years after the Constitution was adopted, in 1789, our forefathers proposed what they called the Bill of Rights; this was the union of the American people and their duties and responsibilities; they knew from where they came, for they knew they came from God and did not hesitate to say so. In the Declaration of Independence they mentioned the name of our God four times; they first called him God, and then Nature's God and refer to Him as Creator, and finally do you know the Declaration of Independence closed with the prayer to Divine Providence to protect our country thru all the years. They knew nothing but right comes from God, and did not hesitate to say so; our forefathers insisted that their rights be put in the Constitution as fundamental law, for all to see so that they could not be denied, rejected or repudiated. That Bill of Rights has been set forth in plain, unmistakable language. What connection has it in regard to the discussion of Mexico? That is a significant question, because when Mexico was recognized before it was recognized we insisted in getting from Mexico and Calles the written guarantee that these rights should be respected as is in the Bill of Rights, and they are not only the rights of Americans, they are the rights of all mankind, and all men wherever they may be. We insisted on right being maintained and respected in Mexico, and Mexico gave their written guarantee that these rights would be respected, and therefore, it is right and proper that these rights should be set forth, so you can see exactly what Mexico promised and agreed.

Then comes our right to be protected from invasion, and the next the guarantee that soldiers cannot be quartered in any city or house without the consent of the owner, and the next is the right and dignity of a man's home, his home is his castle, against unreasonable search and seizure; that means every man's home, all of our homes, yours and mine. The next guarantee that before any man can be tried for an offense; first of all he must be indicted, and next the right of trial by jury; no matter how poor you are, the humblest citizen is given the right of trial by jury. The next one is a guarantee of the guilty against inhuman, unusual and cruel punishment. Yet under the Red rule of Mexico thousands upon thousands, who never even committed any crime, are cruelly punished and even murdered for no crime at all, and yet even the guilty under the Constitution of the United States are protected against cruel and unusual punishment for their crimes. The last two clauses in the Bill of Rights declares that it does not deny the rights of the people, and is the guarantee that declares the rights of the States are not prohibited, but are guaranteed to the States.

That is the Bill of Rights. It says that Congress shall make no laws respecting the establishment of religion, or prohibiting the free exercise thereof. What is that? It is simply this, that Congress shall never in any way or at any time interfere with religious worship or the liberty of conscience; and again it shall never interfere with the freedom of speech or of the press, or of petition. That is the great Bill of Rights of all mankind, that Red Mexico absolutely denies, and prohibits and scorns and grinds in the dust under the Red rule in Mexico, yet Mexico gave the guarantee they would be preserved for all men in Mexico. Yet there are men in the United States today who say that this is not a question for America, but is simply a question for Mexico. Why isn't it a question for America when the doctrine of the Bill of Rights and the liberty and protection of those rights; why doesn't it concern America? The life and liberty and freedom of young America does matter, it don't matter where he is today, whether in Mexico or the United States, the life and liberty and freedom of the American is sacred to the American people, and of interest to the future American, and therefore, this question does concern the American people in general. If I were asked tonight to set forth one

of the greatest things why the American people should be concerned by the Mexican question, I would quote from an address of President Coolidge a few months ago, when he gave his reasons why he refused to recognize Russia; he said, "I do not propose to barter away for the reason only of trade, any of the sacred rights of humanity. I do not propose to make merchandise of any American principle; these rights and principles must go wherever the sanctity of our government goes." That is not only sound justness, but sound international law. In other words, he said unless the Nations of the world recognize the sacred rights of honesty they are not entitled to receive our sanction and recognition, and yet today in Mexico, our recognition is in Mexico, but the sacred rights of Americans are not in Mexico, and our sacred principles are not upheld in Mexico, and until they go to Mexico and stay there, then the American people are justified in demanding of their government that they recognize these sacred rights and maintain them, therefore, there is just reason why the American people should be duly concerned about the Mexican situation.

I said in the beginning, one of the reasons I was deeply interested in this was because of my connection with organized labor; I recognize the danger that comes to the future labor and to its strength on account of the sympathetic and fraternal feeling with the Federation of Labor in Mexico, known as the Cum. It is simply the Mexican Federation of Labor; the Cum is simply and merely the red political tool of Red Mexico, and not a labor commission as we know a Labor Commission, but merely a tool of the red government of Mexico. Let me quote from Homan, who was a representative of the Mexican Federation of Labor in '24 and '25. Who is he? He came to New York from Russia for the purpose of breaking down labor institutions by poison propaganda and communism, and then went to Mexico City and had charge of the same propaganda for interesting the working class in Mexico, and came to the convention in '24 and '25 and opening his address said: "The labor move in Mexico is completely subjected to the government." Think of it. In other words it is the red tool of the red government of Mexico they have an agreement or contract signed between Calles, before he became president, and the Mexican Federation of Labor, and it was afterwards countersigned by the General Secretary of Mexican Labor. What does it provide; first of all it provides three things:

First: Every expense of the Mexican Federation shall be paid out of the Mexican Labor Commission.

Second: It provides that the red leader of the Mexican Labor shall be the Assistant of the Secretary of Labor and Commerce.

Third: It declares that as a result of these things the Mexican Federation of Labor shall form and organize a voluntary army and officer it, and shall answer the call of the Calles government when they want them.

Let us see whether they have been used. You have read a great deal of late of the Nicaraguan situation. Where is this and what? Nicaragua is a small country of some 700,000 population and has a Constitutional government, accepted by the people and recognized by the government of the United States; we have a treaty with Nicaragua and also we have a treaty with Red Mexico. Under our treaty we have an embargo on arms, under that embargo no one in Mexico can buy any guns or ammunition of any kind in the United States except the red Mexican government, and they can buy all they wish, and they have been buying guns and ammunition by the car loads in the United States.

What are they doing with them? Shipping them right on through Mexico and at the same time shipping Mexican red laborers to use the guns and overthrow the Nicaragua government, and then they hope to work down into Central America and then on down into South America, and finally they hope to entangle the United States some day in a world war with Japan; that is part of the plan of the red Russian bolshevism and communism today.

Some people will say Oh, he is afraid for his church. Don't get the impression that I am fighting because I am afraid for my religion or the furtherance of the church. It would be presumptuous on my part to fear for my church, when Jesus Christ himself guaranteed our safety, even against the gates of all hell, and He said unto Peter, "Thou art Peter; and upon this rock I will build my church; and the gates of hell shall not prevail against it." It would be presumptuous of me to fear for the future of the church when Christ himself guaranteed to protect it all through the ages, even against the "gates of hell." I do not fear for my religion, but I do fear for my country, because God never at any time guaranteed to protect any nation throughout the earth, and, therefore, I fear for the future of my country against the dread teachings of bolshevism and communism that would be glad of the opportunity to destroy even the Lord's righteousness; and as Americans we should be vitally interested in the Mexican question and what it will mean to the future of civilization.

If I were asked tonight to set forth in one word the situation I would take the one word "America"; and here is what America means for all of us. The first letter is "A" and stands for America. Our forefathers, whether they came over here with Columbus in 1620 or whether they came afterwards, no matter how far back we trace our ancestors it is only in the position of time as to when they landed on these shores and by co-operation and prayer and brotherly love, working together to establish our Country, Our America. The next letter is "M" and stands for Manhood and Womanhood of America. It is founded on character, clean living and brotherly love and justice and righteousness. That is the manhood of our country. The "E" stands for education, education is necessary and always will be. George Washington

said 150 years ago "An education which fails to recognize moral principles is dangerous to our country;" that is true and comes from the laws of God. Education must recognize and apply the laws of God and the Ten Commandments. The "R" stands for Republic, my Republic; it is the greatest nation in history. The "I" stands for Ideals; the ideals of our country. The constitution and what it sets forth, the Declaration of Independence and what it says; it stands for right, a right that cannot be taken away. The "C" stands for Constitution; the constitution of our country, one of the greatest documents that ever came from the mind of man; the guarantee of protection of rights, of liberty, of life, to every American no matter where he be. The final "A" stands for Ambition. Ambition to serve America, in co-operation and good will and brotherly love, and to protect and join in and guarantee the rights of every American, and ambition to render our service, first to God, and then to our Country.

#### RAYMOND SHARPE'S WHITE LEGHORN HENS, HERE'S THE RECORD

37 hens in two Egg Laying Contests—A. & M. College, College Station and John Tarleton College of Stephenville, Texas. 852 eggs in January, (a winter month.)

465 eggs in December from 20 hens winning FIRST and SECOND place.

Good records have been made by my hens for a number of years, for instance in 1925—4 hens laid 1040 eggs for the year.

I have spent years of breeding egg laying quality into my flock and before you pay out your hard earned money for eggs or chicks get my prices—this quality costs you very little more than the cheaper kinds. I can fill only a few more orders for March delivery.
